January 10, 2012

Dear Coach Golden,

My name is JW Hertzberg and I am a 10 Year old 4th grade student at Southside Christian School in Simpsonville, South Carolina. Although I live in South Carolina now, I was born in South Florida (Boca Raton).

I play quarterback for the simpsonville Bears in rec league. My dream is to one day play for you and University of Miami. I would be grateful to you if you could tell me how I can achieve this goal. I am enclosing my school report card along with a video of some of my highlights from last year's football season when I was a 9 year old.

For the past 2 years, my coaches Jonathan Jeffcoat and Jayson Johnson have had me running a Wing T offense. I am able to also be a pocket passer and run the option. I can run the offense from under center or from the shotgun. This year we will be running the 32 and 23 "Zone Option Read". When you have time if you could call Coach Jonathan (864-399-4132) or Coach Jayson (864-616-2343) and let them know what you would like me to work on. I am sure they will do it.

In the offseason, I also train at least 3 times per week at D1 sports training Greenville, South Carolina with Mario Brown who has trained many NFL players and attends the Peyton Manning passing academy every year. He will also work with me on anything you suggest. Mario's phone number is (864-386-3157). Mario and D1 have helped me in all areas of the game.

I know you are really busy, but I look forward to hopefully receiving your suggestions for me and I hope I can meet you personally in South Florida or when you come to South Carolina.

I will keep working hard and keep my grades up as all my Coaches tell me how important this is to get into the University of Miami.

Go canes and Best regards.

JW

P.S. I am having my parents type this letter in case you cannot read my writing.
